

Global Association of Prime Home Inspectors

GAPHI is a non-profit organization dedicated to increasing the quality of the home inspection industry. This is the role of the individual inspector. The inspector is the one that inspects the roof in the pouring rain, the one who crawls into muddy crawlspace to ensure structural integrity, the one who climbs into the attic in the middle of sweltering heat. The home inspector is the average person's first line of defense. We respect and admire the honest work that home inspectors do day in and day out, and we want to stand by that inspector through any condition.

GAPHI offers the following services to hard working men and women that provide the result of us with peace and mind:

A BLANKET OF PROTECT

The standards of practice issued by GAPHI are designed to provide the best possible and most thorough home inspection, without putting the the inspector in an awkward position of liability. The standards have been drawn up from tried and true categorizes. These represent the pinnacle in quality.

EXPERT ADVICE AND CONSULTING

Even the best of us are found at a loss sometime. The expert consulting provided to all members eliminates any doubt, making you 100% confident in the accuracy of information provided to your clients. Our grand library has a viable assortment of manuals, spec charts, and reference sources to handle even the most obscure questions. A full time staff means you can always find the right person to call with the right answers. The value of a home inspection stems from the quality of knowledge used to produce it.

ADVERTISING FOR CLIENTAL

As an official member of GAPHI, we want to let people in your area know where to find your quality services. We will post our operations information and contact number, both on our website, and bi-weekly periodical. Good news is always worth spreading.

EXPERT TRAINING

Our affiliate schools offer expert training in all the various fields that a professional home inspector may need. As a member of GAPHI you are entitled to receive pamphlets and course outlines free of charge. In addition, any classes you opt to undertake will be presented to you at a 65% discount! Knowledge is the most important service we provide.

CURRENT PERIODICALS

Construction is a vast and ever changing industry. New products roll of the shelves daily and new methods emerge from the minds of premier engineers at a staggering pace. We make sure you stay current. Our Bi-weekly periodical will keep you up to date with new methods and techniques, as well as provide you a general idea of what the industry has been doing. Our periodical does the research for you because professional home inspectors have enough to handle as it is.
